The interactive customer service video, voice and chat solution in the cloud

- Enhance your online customer interaction with video, voice and chat
- Boost your sales and conversions
- Accessible and easy to use for everyone

Integrated **communication solutions** for every business need

ChatrActive

Connect and engage with your customers on your website with ChatrActive's triggered messaging system. Create satisfied customers and increased sales revenues with chat messaging, video, voice and content sharing tools.

VideoActive

Provide an integrated customer experience in your brick and mortar locations with VideoActive's easy access to your remote agents through kiosk tablets. Avoid lost sales opportunities with instant face-to-face service and reduced customer waiting times.

SmarrActive

A visual phone service that instantly connects customers to your call center with the Moshi Moshi Interactive App where they can communicate with agents through chat, video or voice by simply inputting a unique service number.
